DENISE WOLFF, MPN, RN, PHN JOINS THE KII CONSULTING TEAM TO FOCUS ON THE HEALTHCARE INDUSTRY

Due to the rise of medical identity theft and data breaches, healthcare employees are at a heightened risk of having their personal data stolen. That is driving the critical need to keep employees' identities protected and their data secure. This rising challenge warrants expertise and a focused effort.

Kate Kortsch, President and CEO of KII Consulting, Inc. is proud to announce that Denise Wolff is joining the KII Consulting Team. "Denise is experienced in leading, managing, developing and implementing healthcare programs. Her background and expertise will allow us to provide the focus on healthcare that we have been striving for for some time."

Denise Wolff is an accomplished RN and Public Health Nurse with a proven record of performance and leadership in multicultural healthcare environments.

KII Consulting, Inc. (K2) is a consulting firm headquartered in Washington, DC and supports organizations in the United States, Canada and Latin America. KII Consulting works closely with clients as a strategic partner and trusted advisor in the identity protection solutions industry with initiatives focusing on three areas: Consulting Services, Private Wealth Client Protection and Speaking & Training.
